

SCOUT DESERT

Art. No. 206306

CE EN ISO 20347:2012 O2 HRO HI CI WR FO SRC

Color: fawn, leather/textile combination, waterproof and breathable with GORE-TEX® Extended, leg height 17 cm, antistatic, sole 016

Available sizes UK 3½ – 12, extra large sizes 12½ – 14

206306

HAIX® Climate System

HAIX® 2-Zone Lacing

Upper Material

A combination of soft and flexible leather, hydrophobic, breathable (5,0 mg/cm²/h), 2,0 – 2,2 mm thick and nylon fabric.

Inner Lining

GORE-TEX® Extended; waterproof and very breathable. Highly abrasion-resistant lining with excellent climate comfort. Especially for flexible interchangeable indoor and outdoor use and at warmer temperatures.

Plastic/fleece inner sole

Moisture absorbent, anti-torsion design for outstanding stability, reducing point pressure (e.g. of stones).

Insole

Comfortable, damping and moisture wicking. Separate heel cup provides good cushioning and foot guidance.

Sole

Rubber/PU walking sole with proven street/terrain tread, wear resistant and non-slip traction; large, bevelled contact surface and superior bending comfort. Fuel resistance and non-marking characteristics. Excellent cold and heat resistant. Compliant with EN ISO 20347:2012.

HAIX® Climate System

The HAIX® Climate system uses the pumping movement, which permits air circulation with every step – warm air is released through the Micro-Dry lining at the top of the boot leg.

HAIX® 2-Zone Lacing

Two Zone Lacing System enables a separate adjustment of the boot to the foot and leg area.

HAIX® Smart Lacing

Smooth and non-pressure adjustment of the boot to the foot, quick lock and lace pocket.

Others

Closed lacing system with eyelets permitting smooth movement, pulling strap, manually applied rubber sidewall on the front and back of the boot for a better durability, fawn sole, antistatic.
